Open to remote / relocation roles across Singapore, Malaysia, Australia, New Zealand, Germany & Europe (GMT+7)

PROFESSIONAL SUMMARY

Full-stack software engineer with 4 years of experience building and shipping production web and mobile-adjacent applications across React, Next.js, Node.js, and Flutter. Comfortable owning features end-to-end, from API design to UI implementation, in fast-moving remote and cross-functional teams. Background spans fintech/payments (DFSP and Mojaloop-based transfer systems), enterprise CRM, and consumer platforms serving multilingual users. Currently working remotely for a Germany-based company; looking for the next remote or relocation opportunity in Singapore, Australia, NZ, or Europe.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, HTML5, CSS3

Frameworks & State: React.js, Next.js, Angular, Redux, Context API, Zustand

Backend & Data: Node.js, RESTful APIs, GraphQL, WebSocket, MongoDB, PostgreSQL, Firebase

Styling: Tailwind CSS, SASS, Material-UI, Chakra UI, Bootstrap, Shadcn-UI

Other: Flutter (mobile), JWT auth & security middleware, Git

WORK EXPERIENCE

Software Engineer — Famoulee (Germany, Remote) *Mar 2026 – Present*

- Ship production features for a multilingual family-relationship platform across Next.js, Node.js, and Flutter, including profile/media workflows, real-time presence, and tribute experiences.
- Built profile and media editing flows (photo upload, crop UI, document uploads), improving reliability of biographic and multi-document uploads.
- Delivered family-tree, panorama, and candle-light tribute features; fixed online-status, API duplication, and auth-flow bugs across multi-day release cycles.

Software Engineer — GoFive *Jan 2024 – Feb 2026 | Bangkok, Thailand*

- Optimized CRM performance and memory usage, improving system efficiency by 15% and cutting load times by 10%.
- Integrated email systems and modernized the UI, reducing delivery delays by 12% and lifting user satisfaction by 20%.
- Streamlined CRM processes, increasing user engagement by 18% and improving overall reliability.

Software Engineer — ThitsaWorks *Jun 2023 – Jan 2024 | Yangon, Myanmar*

- Enhanced a DFSP (Digital Financial Service Provider) portal and optimized RESTful APIs on a Mojaloop-based payments stack, boosting user engagement by 30% and cutting response time by 20%.
- Designed the Finance Portal and Admin UI, improving UX by 25%.
- Led a cross-functional team to launch Thitsa Wallet, a secure peer-to-peer transfer product.

Mid Front-End Developer — Smilax Global *Jun 2022 – Jan 2023 | Yangon, Myanmar*

- Delivered pixel-perfect React/Tailwind UI from Figma designs, achieving 98% design accuracy and 45% faster load times.
- Built reusable components that cut bundle size by 50%; integrated Google Maps and QR tracking, reducing manual monitoring by 40%.
- Implemented JWT authentication and security middleware, reducing vulnerability risk by 15% and helping ensure SOC 2 compliance.

EDUCATION

BSc (Hons) Computer Science — First Class

University of Lancashire (UK)

Diploma in Nautical Science — Extra First Class

Myanmar Mercantile Marine College

Availability: Immediately available. Open to full-time remote roles or relocation.
